Mr. Peter Samson,
Hiring Manager
MyJobMag NewLife Specialist Hospital
7 Atunwa street,
Opebi,
Lagos.

Dear Mr. Peter,

In response to the advertisement for a healthcare management trainee that was published in *This Day*. I am enthusiastic about the fact that I will have the opportunity to contribute to the company's goal. As a graduate of public health and health care management, I have been able to acquire some skills that I know will add value to this company.

During my internship period at White Sea Hospital, I had the opportunity to work alongside professional health care workers. The duties that some of the health care professional performed includes; ensuring quality resident care, improving regulatory compliance and general workflow experiences.

My other experiences include; public health care monitoring intern, and teaching assistant. During these times, I proved myself as a caring and responsible person that can be depended upon to manage different task to ensure the wellbeing of others. I buy into MyJobMag NewLife Specialist Hospital goal of ensuring the wellbeing of others.

I look forward to being part of a team that is contributing immensely to the healthcare system and management in Nigeria. I would welcome an opportunity to discuss how I fit into the role. Thank you for the consideration.

Sincerely,

John Ayomide
