Mr. Peter Samson,
Human Resource manager
MyJobMag Limited
7 Atunwa street,
Opebi,
Lagos.

Dear Mr. Peter,

It is with great enthusiasm that I apply for the post of an assistant engineer at MyJobMag Limited that was advertised on your Facebook page. As a graduate of mechanical engineering, I have been able to acquire a sound overall knowledge of leading edge engineering principles, tools and practices with emphasis on designing, building and testing of mechanical systems.

I am proficient in the use of various automated solutions including current releases of AutoCAD and SolidWorks. I have applied classroom learning to innovative and successful projects in which I served as sole or principal designer. Additionally, I have been a responsible leader in a family owned small business.

I have been able to build some skills that I am sure will be of great value to this company working and practicing engineering. Some the skills include;

- Design creativity
- Analytical and troubleshooting skills
- Project management skills

Over the years, I have been greatly inspired with MyJobMag Limited excellent and affordable engineering services. My vision as an engineer has also been to provide top-notch engineering solutions as low and as affordable as possible. Having the opportunity to work with MyJobMag Limited will bring me close to achieving that vision as well as contributing positively to the company.

I would welcome the opportunity to discuss how my education and ability might be best employed by your organization. Thanks for the consideration.

Sincerely,

John Ayomide
