Mr. Peter Samson,
Human Resource manager
MyJobMag BuildIT Nigeria
7 Atunwa street,
Opebi,
Lagos.

Dear Mr. Peter,

I am applying for the position of a web developer that was advertised on your career page because I believe I have the technical skills, experience and creativity to succeed in the role.

I believe in 100% excellence when doing my job, and this is what I have employed as a web developer in modifying, improving and building websites. I have spent several years working across different tech companies creating websites for a number of clients. During my period of experience, I have become fully proficient in these different software and programming tools:

- HTML
- CSS
- JavaScript
- NoteTabPro
- WAMP
- Git Bash
- Adobe Dreamweaver
- Adobe Suite – Photoshop, Illustrator, InDesign

In my current role at TechSolutions Nigeria, I work with large profile corporate and government clients to tailor websites for their needs. I also work closely with user experience team to ensure that the website and its components are engaging and very easy to use, ensuring maximum usage and satisfaction. In this role 875 of clients have reported increased time-on-site and improved website traffic after working and redesigning their website with us.

MyJobMag BuildIT Nigeria over time have been able to maintain an impeccable record of building user-friendly websites that can online traffic rate for clients. Joining the team of web developers will in MyJobMag BuildIT Nigeria is being part of a working system. I am confident that I can advance my skills to create innovative web site solutions for more clients than ever before. I would welcome an opportunity to discuss how I fit into the company. Thank you for your consideration.
