Dear Mr. /Ms. LastName:

As an intending medical professional, with a recent doctorate degree from the College of Medicine Abuja, it is with great pleasure that I apply for the position of a medical assistant intern at ABC hospital that was advertised on your website. I believe that my background in medical science and my passion for medicine will make me a good fit for this position.

Studying medicine for 6 years has equipped me with fundamental knowledge of medical practices. In my previous internship where I worked at my school's Health Center, I was able to acquire hands-on experience dealing with patients and handling different cases on a daily basis.

With my academic experience, I was able to develop a good understanding of medical terminology, pharmacology, and general medicine. Considering my education and excellent communication skills, I believe that I will make a lasting contribution to your team if I am given the opportunity.

With the amount of successes that this hospital has achieved in the Nigerian healthcare sector, and the years of experience that the company has under her belt, I know that this will be a great environment for me to grow and develop in my career while I also contribute towards the success of this company.

With my experience in treatment for a variety of patients, I believe that I can contribute to the success of this company in my capacity as an intern. I look forward to an opportunity to discuss your needs and my qualification in details.

Thank you for your consideration.
